## THERE IS TOO MUCH RED TAPE

Displayed by Others in Authority, Who Take Things Easy, and Are Prigal of Time—Not Progressing in Accordance With Anglo-Saxon Traditions.

(Copyright, 1900, The Associated Press.)

TIENTSIN, Wednesday, July 26, via Shanghai, Thursday, Aug. 2.—A majority of the commanding officers here say the relief expedition will start for Peking about August 15. In the meantime the events at Peking which might be expected to cast a shadow over the allied forces are seemingly but slightly regarded. High officers are entertaining nightly at elaborate dinners, with military bands playing operatic airs. Foreign residents and friends of the besieged in Peking who came to Tientsin to await news or to accompany the expedition, are intensely dissatisfied with the progress of preparations. They accuse the army of indifference and of magnifying the difficulties to be encountered in reaching Peking.

Not Progressing Properly. President Tenny, of the Tientsin University, who has volunteered to guide the army to Peking, said to-night: "This business is not progressing in accordance with Anglo-Saxon traditions. Twenty thousand soldiers are staying here while women and children of their own race are starving and awaiting massacre eight miles away. Military and naval officers meanwhile are wasting time in bickering over petty politics as a sorry spectacle. It will be a dark blot on the reputation of every commanding officer here if the white people in Peking are allowed to perish without a desperate effort to save them."

Sufficient Troops for the Campaign. President Tenny and many others who are acquainted with the conditions think there were sufficient troops here to push forward and pursue the Chinese after the fall of the native city of Tientsin. That the position of the legations demanded that the army take extraordinary risks by scouring the surrounding country and commandeering animals and wagons and that boats sufficient for purposes of transportation might be improvised, is the prevailing opinion of civilians, and many officers, notably Japanese and Americans confirm this view. The comment is made that European officers are too attached to book theories to utilize the resources of the country, and that they would rather stay in Tientsin according to rules than start for Peking without a perfect equipment.

Legations Will Manage to Hold Out. General Dordard, of the British forces, and other high officers take an optimistic view of conditions at Peking, saying they think the legations will manage to hold out.

On the surface the best of feeling prevails among officers and soldiers of the several nations represented here. All are fraternizing, but the lack of organization and supreme commander handicaps progress. While people at Tientsin are entirely ignorant of diplomatic negotiations abroad concerning Chinese affairs, the lack of harmony here among the representatives of the powers hinders vigorous action.

The Japanese are giving a splendid exhibition of organization. Their whole machine moves like clock work. There have been forwarded from Japan small boats or lighters for moving troops and stores, and every regiment is landed quickly and without confusion and started for Tientsin within a few hours after the transport has anchored in the harbor.

Japanese a Revelation. The management of the Japanese army and the bravery spirit and intelligence of the Japanese troops are a revelation that commands the respect and admiration of all foreign officers.

The heat is intense. The temperature averaging 100 degrees during the week and yesterday it was 104 degrees.

The disregard of all sanitary regulations by certain troops is a serious menace. The streets are full of refuse and an insufferable stench pervades the town. The police and sanitary work compares unfavorably with the American regime in the Philippines.

## CATARRH OF THE PELVIC ORGANS.

## The Reason Why So Many Women Are Sick.

Mrs. Eliza Wike, 100 Iron St., Akron, O.

Mrs. Eliza Wike says: "I would be in my grave now if it had not been for your God-sent remedy, Pe-ru-na. Everybody says I am looking so much better. No doctor could help me as Pe-ru-na did. I was a broken-down woman. It is now seven years past that I was cured."

Mrs. Sarah Gallitz, of Luton, Ia., also writes: "I was suffering with the change of life. I had spells of flowing every two or three weeks, which would leave me nearly dead. I had given up hope of being cured, when I heard of Dr. Hartman's remedies and began to use them. I am entirely cured, and give all the credit to Pe-ru-na."

But comparatively few women who are suffering with pelvic catarrh know that this is the case. Their trouble is called dyspepsia, heart trouble, female weakness, weak lungs, nervous debility; indeed, almost the whole category of medical terms has been applied to catarrh of some organ of the female anatomy. If these women could only realize that their trouble is probably ca-

## MOUNDSVILLE BUDGET.

Council passed two ordinances which have been needed for a long time, viz., an ordinance providing for a license tax on dogs and a bicycle ordinance. It was decided to pay for no more water until the Moundsville Water Company complies with the terms of its franchise in regard to the quality of water. It was decided to open two streets near the Baltimore & Ohio and Ohio River depots, and if need be enter condemnation proceedings in order to secure the necessary right of way. G. S. McFadden was given permission to grade the street north of the mound, providing he secures a waiver of damages from the property owners on the north side of the street. The charges against Officer Potts were taken up, and after hearing the evidence on both sides, council, by a vote of 6 to 4, decided that the charges had not been sustained.

The South Penn people who put down the well on the E. B. Francis farm, have drawn the casing from the well, and abandoned it. Mrs. Karolina Suter, 2128 Vine street, Cincinnati, O., says: "Two years ago I fell on the ice. At first I did not think that I had hurt myself, but several months after I felt pains in the abdomen, and a little later my menses failed to appear. I wrote to you in regard to it, hearing that you cured female troubles, and followed your directions. I took Pe-ru-na and Man-a-lin. I now have the best of health."

Mrs. Marie Hanson, of Niebull, Wis., writes: "About two years ago I had disease of the kidneys and womb. I was in a weak, nervous condition and began to have dread full palpitation of the heart. I thank you for your advice and I am glad I can say that I am well now."

## THE STREETS RAN WITH BLOOD.

Prince Tuan in Control of the Government—Exhorts the Chinese to Kill All Foreigners and Native Christians—General Ma Defeated by Americans and English.

(Copyright, 1900, The Associated Press.)

CHE FOO, July 26, via Shanghai, Aug. 2.—The latest reports from Peking were brought by disaffected officers of the Chinese army. They are considered reliable. The officers left Peking on July 15. They say anarchy had reigned in Peking for months, and the streets ran with blood, the Chinamen fighting among themselves. Jung-Lu, commander in chief of the Chinese forces, and Prince Ching, espoused the cause of the foreigners and endeavored with the part of the army loyal to them to expel the boxers. Later, with the majority of the imperial troops, under anti-foreign leaders, Prince Tuan and General Tung-Fuh-Sian were victorious and Jung-Lu and Prince Ching, with their followers were prisoners in their yamens when the bearers of these reports left Peking.

Kill All Foreigners. Prince Tuan and General Tung-Fuh-Sian appear to control the government, according to the officers and issued edicts printed in the Gazette, exhorting the Chinese to kill all foreigners and native Christians. One officer says that there are 16,000 troops in Peking, including Tung's army and 8,000 more at Tung-Tsun. The soldiers hold all the streets within a mile of the legations. The foreign troops, when the officers left Peking, had burned and abandoned the Chenmen gate. Their ammunition appeared to be falling and their quick firing guns had been silenced for some days before July 15 and they were using their rifles only when hard pressed.

General Ma Defeated. The officers said that every foreign bullet kills a Chinaman.

The reports state that the American and English troops defeated General Ma in a night battle on July 10.

The reports from Chinese sources are to the effect that all of the legations forces were killed. Chinamen caught a messenger who was trying to leave the legations on July 10, with the following message:

"To any foreign commander: Make all haste if you intend to save us. We can hold out but a few days."
